Contents

Volume 19, Number 1 **1982**

ARTICLES

A Study of cAMP Binding Proteins on Intact and Disrupted Sperm Cells Using 8-Azidoadenosine 3',5'-Cyclic Monophosphate, **Patrick K. Schoff, Ian T. Forrester, Boyd E. Haley, and Robert W. Atherton** 1

Macromolecular Synthesis and Stability in Growth-Arrested BALB/c-3T3 Cells, **Walker Wharton and W.J. Pledger** 17

Immunological Properties of Gap Junction Protein From Mouse Liver, **Otto Traub, Uwe Janssen-Timmen, Petra Maria Drüge, Rolf Dermietzel, and Klaus Willecke** 27

Heterogeneity of 14S and 30S Dynein ATPase Activities With Respect to Activation by Calmodulin, **Jacob J. Blum, A. Hayes, T. Vanaman, and F.H. Schachat** 45

Protein-Dependent Lipid Lateral Phase Separation as a Mechanism of Human Erythrocyte Ghost Resealing, **Maurizio Minetti and Marina Ceccarini** 59

In Vitro Labeling of Proteins by Reductive Methylation: Application to Proteins Involved in Supramolecular Structures, **C.S. Heacock, B.W. Bernstein, A.S. Duhaiman, D.A. Amorese, and J.R. Bamburg** 77

Elevated Intracellular Concentrations of Cyclic AMP Inhibited Serum-Stimulated, Density-Arrested BALB/c-3T3 Cells in Mid G_1, **Edward B. Leof, Walker Wharton, Edward O'Keefe, and W.J. Pledger** 93

Volume 19, Number 2 **1982**

ARTICLES

Cross-Reactivity of Antibodies Against Synthetic Peptides, **Gernot Walter and Hermann Werchau** 119

Detection of a Complex of SV40 Large Tumor Antigen and 53K Cellular Protein on the Surface of SV40-Transformed Mouse Cells, **Myriam Santos and Janet S. Butel** 127

Parameters for Crystal Growth of Ribosomal Subunits, **A. Yonath, J. Müssig, and H.G. Wittmann** 145

Biochemical and Morphological Properties of Bovine Erythrocyte Membrane Glycoproteins, **M.A. Fletcher, J.P. Brunschwig, H. Lo, K.E. Caldwell, and T.M. Lo** 157

Sexual Agglutination Factors From the Yeast Pichia amethionina, **Lucia Mendonça-Previato, David Burke, and Clinton E. Ballou** 171

Quantitative Composition and Characterization of the Proteins in Membrane Vesicles Released From Erythrocytes by Dimyristoylphosphatidylcholine. A Membrane System Without Cytoskeleton, **M. Weitz, O.J. Bjerrum, P. Ott, and U. Brodbeck** 179

Transbilayer Movement of Various Phosphatidylcholine Species in Intact Human Erythrocytes, **Gerrit van Meer and Jos A.F. Op den Kamp** 193

INVITED REVIEW

Viruses, Protoviruses, Development, and Evolution, **Howard M. Temin** 105

Volume 19, Number 3 **1982**

ARTICLES

Modulation of Epidermal Growth Factor-Dependent Protein Phosphorylation in Cell Membrane Preparations by Receptor Down Regulation, **J.A. Fernandez-Pol** 205

The Antigenic Structure of the Acetylcholine Receptor From Torpedo californica, **W.J. Gullick and J.M. Lindstrom** 223

Modulation of the Neuronal Binding of the β Subunit of Nerve Growth Factor (NGF) by the α-NGF Subunit, **Nathaniel R. Woodruff and Kenneth E. Neet** 231

Multiple Specific Binding Sites for Purified Glucocorticoid Receptors on Mammary Tumor Virus DNA, **Farhang Payvar, Gary L. Firestone, Susan R. Ross, Vicki L. Chandler, Örjan Wrange, Jan Carlstedt-Duke, Jan-Åke Gustafsson, and Keith R. Yamamoto** 241

Cells Transformed by a Wide Variety of Agents Express Higher Abundance Levels of Some Cellular RNA Species, **T. Schutzbank and A.J. Levine** 259

Sequence Analysis and In Vitro Transcription of Portions of the Epstein-Barr Virus Genome, **P.L. Deininger, A. Bankier, P. Farrell, R. Baer, and B. Barrell** 267

Preparation of Rat Monoclonal Antibodies to Epitopes Encoded by the Viral Oncogene (v-*fms*) of McDonough Feline Sarcoma Virus, **Soni J. Anderson, Mark E. Furth, Linda Wolff, Sandra K. Ruscetti, and Charles J. Sherr** 275

INVITED REVIEWS

Role of Epidermal Growth Factor-Stimulated Protein Kinase in Control of Proliferation of A431 Cells, **Gordon N. Gill, Janice E. Buss, Cheri S. Lazar, Aliza Lifshitz, and Jonathan A. Cooper** 249

Characterization of Viral Genomes in the Liver and Serum of Chimpanzee Long-term Hepatitis B Virus Carriers: A Possible Role for Supercoiled HBV-DNA in Persistent HBV Infection, **Nelson Ruiz-Opazo, Prasanta R. Chakraborty, and David A. Shafritz** 281

Genetic Recombination in Avian Retroviruses, **A.M. Skalka, L. Boone, R. Junghans, and D. Luk** 293

Volume 19, Number 4 **1982**

ARTICLES

Biologic Activity of Anti-Thyrotropin Anti-Idiotypic Antibody, **Nadir R. Farid, Rosario Brioñes-Urbina, and M. Nazrul-Islam** 305

Regulation of Herpes Simplex Virus Gene Transcription In Vitro, **Thomas W. Beck and Robert L. Millette** 333

Analysis of v-*mos* Encoded Proteins in Cells Transformed by Several Related Murine Sarcoma Viruses, **Jackie Papkoff, Mei H.-T. Lai, and Tony Hunter** 349

A Basement Membrane-Associated Glycoprotein From Skeletal Muscle, **Linda S.G. Marton and Barry G.W. Arnason** 363

Epidermal Growth Factor Stimulates Fluid Phase Endocytosis in Human Fibroblasts Through a Signal Generated at the Cell Surface, **H. Steven Wiley and Dennis D. Cunningham** 383

Fibronectin Is Apparently Not Involved in Species-Specific Reaggregation of Cells From the Marine Sponge Geodia cydonium, **J. Conrad, B. Diehl-Seifert, R.K. Zahn, G. Uhlenbruck, E. Zimmermann, and W.E.G. Müller** 395

INVITED REVIEWS

Regulation of B Lymphocyte Replication and Maturation, **Fritz Melchers, Jan Andersson, Catherine Corbel, Maria Leptin, Waldemar Lernhardt, Walter Gerhard, and Jesper Zeuthen** 315

Author Index to Volume 19 405

Subject Index to Volume 19 407
